Grace Harvest Academy & Junior School | Kangemi, Nairobi, Kenya | June 2026
Excellence • Integrity • Discipline • Faith • Respect • Community Service

Impact at a Glance

510

students
enrolled at
academy as of
June 2026

25

teachers
attended training
sessions

19

teachers
completed the post-
training survey;
6 absent when given

260

students approx.
experienced typing
skills; 126 students
experienced microbits

76%

survey
response rate

3.37 → 4.68/5

teacher readiness to teach typing

4.74/5

teacher clarity, usefulness, demonstration, training quality

Teacher readiness to teach typing increased by **1.32** points on a five-point scale, and nearly all responding teachers reported high readiness after the training.

What the Training Supported

Typing instruction

Safe computer use

Typetastic
Platform

PBS science games
and videos

Grade-level typing
progression

Subject-area
digital activities

Teacher Voice

Teacher feedback showed that the training was practical, memorable, and connected to classroom use. Teachers especially value typing instruction, types of games and activities are designed to help students apply in real-world situations.

“

The training was engaging, vibrant, and insightful

“

Typing, home row, and upper row were the best parts of the training

“

I will incorporate the knowledge gained in content delivery

What Is Still Needed

Teacher Support

- CBC-aligned digital resources
- Typing instructions
- Practical digital activities

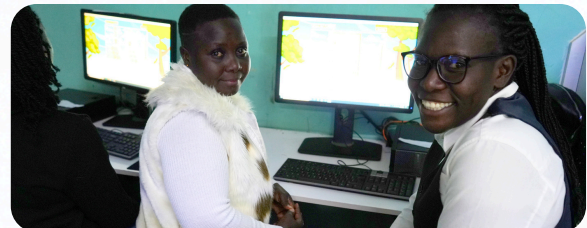

Technology Support

- Computer lab access support
- UPS power protection
- Internet safety tools
- Introduction to tools such as microbits, if feasible

2027 Support Opportunity

Continued support will help make a focused 2- to 3-week Kangemi support visit in 2027. This visit would help Grace Harvest Academy & Junior School move from initial training toward practical classroom implementation.

The 2027 visit would focus on reviewing what teachers implemented after the 2026 training, providing targeted follow-up support, strengthening grade-level typing instruction, introducing practical digital activities, supporting safer computer lab routines, and helping the school create a simple continuation plan.
